01. GUIDED BY THE STARS

Director(s): Veronique BERTHONNEAU

Writer(s): Véronique BERTHONNEAU

Thomas and Estelle are two young deaf students who are passionate about astronomy. On a voluntary basis, they teach to share with other young deaf people their knowledge and their taste for the mysteries of the universe.

We follow them in the field, to places that where we can observe the sky. From astronomy to astrophysics, from the visual to the theoretical, from the marvelous to the speculative... Is it possible to imagine other worlds, worlds that might be different or even similar to those of the Earth?
