

## NATURAL EUROPE

**Director(s): Joakim DEMMER**

**Writer(s): Andreas PICHLER, Joakim DEMMER**

Engl. version now online!

Like the rest of the world, Europe is facing ecological disasters that call for a paradigm shift.

Two centuries of industrialization have led to a deeply concerning impoverishment of the continent's biodiversity, and rising temperatures could cause the meltdown of the glaciers of the Alps by 2040. How to recreate a more harmonious coexistence with wildlife and nature?

The continent of Europe at a turning point: grappling with the effects of the Covid-19 pandemic and the war in Ukraine, Europe faces immense challenges. Produced by a transnational team, this series of six thematic episodes sets out to meet those who prepare the future of the continent. Through unprecedented aerial views, which highlight the diversity of landscapes across the continent, through cartographic animations and by meeting committed citizens, the series offers an invigorating tour of a Europe of possibilities!
