Today, our continent is facing the biggest wave of migration since 1945: more than 4 million people have fled war-torn Ukraine.

Europe welcomes these refugees with open arms where it had been closing its gates for years to others who came from the South, transforming itself into a militarized fortress. But can an aging Europe manage without integrating all of these new arrivals?

The continent of Europe at a turning point: grappling with the effects of the Covid-19 pandemic and the war in Ukraine, Europe faces immense challenges. Produced by a transnational team, this series of six thematic episodes sets out to meet those who prepare the future of the continent. Through unprecedented aerial views, which highlight the diversity of landscapes across the continent, through cartographic animations and by meeting committed citizens, the series offers an invigorating tour of a Europe of possibilities!
