

DIGITAL EUROPE

Director(s): Andreas PICHLER

Writer(s): Roland THERON, Andreas PICHLER, Joakim DEMMER

Engl. version now online!
The digital economy is growing seven times faster today than the rest of the economy. But outdone by China and the United States, Europe appears to be lagging behind.
Fake news, precarious jobs, data theft...the supremacy of the American giants is not without consequences. How can Europe preserve its sovereignty and our freedoms in this new digital territory?

The continent of Europe at a turning point: grappling with the effects of the Covid-19 pandemic and the war in Ukraine, Europe faces immense challenges. Produced by a transnational team, this series of six thematic episodes sets out to meet those who prepare the future of the continent. Through unprecedented aerial views, which highlight the diversity of landscapes across the continent, through cartographic animations and by meeting committed citizens, the series offers an invigorating tour of a Europe of possibilities!
